

TACTEN

**INTEGRATED
INDUSTRIAL
SERVICES**

Rope Access &
Industrial Services

Integrated Capabilities

**Impeccable
safety record**

THE TACTEN ADVANTAGE

There are certain advantages Acuren has over other providers:

- Extensive real-time in-house engineering capabilities
- Robust drone access program
- Single source with in-house trades allows for work-flow and cost efficiencies
- Being the industry rope access leader for decades affords us the experience advantage

HOISTING & RIGGING

- Flare and incinerator stacks (repairs, installations, and removals)
- Heavy lifting and hoisting

INSPECTION

- Remote inspection
 - ◊ Sensor install
 - ◊ Acoustic emission
 - ◊ Stress analysis
- Field engineering
- Coal bunker inspection
- Stack inspection
- Quality assurance
- Quality control
- Spring cans
- Spring hangers
- Pipe hangers and clamps
- Pipe supports, guides, shields and saddles

INSULATION & ASBESTOS ABATEMENT

- New installation, repairs and removal
 - ◊ Piping, vessels, columns and tank insulation and cladding
 - ◊ Utilidor and tank panel systems
 - ◊ Refractory repair
 - ◊ Asbestos abatement
 - ◊ Fireproofing and firestopping
- Fabrication
 - ◊ Fittings
 - ◊ Flange and valve covers (hard and soft)
 - ◊ Insulation systems

INSTALLATION, REMOVAL & REPLACEMENT

- Piping repairs, installation, and removal
- Electrical installation
- Metal cladding
- Vessel and tank repairs
- Flare tip replacement
- Riser installation
- Sprinkler heads
- Bolt torquing
- Valve turning
- Block and blinding
- Heat treat
- Spring cans
- Spring hangers
- Pipe hangers and clamps
- Pipe supports, guides, shields and saddles

ELECTRICAL

- Inspection and testing
 - ◊ Line resistance testing
 - ◊ Insulation visual inspection
- Terminations
- Cable pulling
- Cable tray inspection and repair
- Electrical heat trace
- Repairs
 - ◊ Electrical panels
 - ◊ Junction boxes
 - ◊ Lighting (ballasts and bulbs)

WELDING / PIPEFITTING

- Steam trace
- Valves, PSV install, replacements
- Structural and pressure
- Vessels and tanks
- Pipe spool replacement
- Patches and repairs
- Wear plates

PAINTING & COATING

- Bristle blasting, sand blasting and vacuum blasting
- Lead paint abatement

OTHER OFFERINGS

- Shutdown and turn around support
- Winterization and seasonal maintenance (including ice and snow removal)
- Removal of damaged equipment and overhead hazards (including cable trays, ice removal, cleaning)
- Confined space (including rescue service)
- Furnace and burner de-slugs
- Nuts and bolt removal, replacement, and torquing
- De-vegetation
- Geotechnical work (slope stabilization, scaling, trimming, pinning)

We enable cost & outage duration reductions that aren't possible with traditional access methods

We go places, and
do things, others
simply can't
